ROCKY MT. HOUSE ANNUAL FAIR

The annual Fair on Tuesday of the Rocky Mountain House Agricultural Society was the most successful the Society has yet held. The weather was delightful and there was a large turnout while the entries, except in horses, easily surpassed those of previous years. The district is growing, more land is being put under cultivation, more dairying is being done, and altogether the farmers seem in good fortune after the hardships of the pioneering stage, which are not passed yet in parts of the district. One good couple with eight industrious children, are yet without a school in their district, which is a serious handicap to the way in which the territory southwest is laid out. The mining development at Saunders has been the winter town; three miles may be working this winter.

This year the Society has its fine new building for inside exhibits, 100 x 24, with well, valued at \$1,500, and nearly all paid for. The new building went into the building. The big dance in the hall evening brought in something like \$125. The Klans orchestra, of Eekville, the favorite in the west district, gave excellent service afternoon and evening. Haystack, of Benito, came in with some choice stock, and cleaned up first and second prizes in two classes. Hugh Lee's fine grey Percheron stallion was adjudged the best horse on the grounds; the owners of purchased stallions have some complaint that grade sires are favored in the district when the demand in horses is for size and quality. Mr. Hyvonen's fine Ontario ram was not favored, in the eyes of Judge William Sharp, so much as the ram Mr. Hyvonen had sold to Mr. Hill, though the new ram cost Mr. Hyvonen more than double the price of the old one. President Ellenburgh's Holsteins, Mr. Hyvonen's and Mr. Stewart's Shorthorns, Mr. McLaren's and Mr. McKenzie's Ayrshires, and other purebreds, show that good stock is coming in and is being appreciated. There was some argument between exhibitors and the judge owing to his awarding the grade dairy cow prize to a Shorthorn cross, but the judge maintained that all the best cows in that class had Shorthorn blood, and the rest were not so good. The goats made quite a showing. The poultry showed up a splendid exhibit. The grasses were also good, the clovers being particularly fine specimens; the first prize entry would be very hard to equal in the province. The domestic products and ladies' work made a great display, and was a great credit to the ladies of the district.

A new feature of this year was the Central Creameries (Fullerton) prize for cream. There were a score of entries, and some had to be turned down owing to arriving too late. Mr. M. Marker, Camrose; Mr. E. W. Taylor, Eekville; and Mr. C. R. Edwards, of Rocky Mountain House, all of the Central Creameries branches, had quite a contest having to be re-weighed. This was a live feature of the Fair, and the Central Creameries people naturally laid heavy support in the district. The Secretary, Thomas, had a great time at Stone & Wellington, nursery men, of Toronto, had a very attractive exhibit of preserved fruits in crabapples, berries, etc.—from Stone & Wellington stock. It has done well in the district.

The children's work was one of the big features of the Fair, while the literary school work, such as drawing and penmanship, was nothing to write home about. The children's work was inaccurate in detail as far as the Red Deer riding was concerned, yet it was very good. The boys and girls are developing in the useful arts. The cooking and preserves especially would keep most housekeepers guessing to equal.

The judges were:—
Livestock—Wm. Sharp, Lacombe.
Poultry and Domestic Products—M. Marker, Camrose.
Vegetables—H. Hyvonen, E. VanNorman.
Ladies' Work—Mrs. Jack Skene, Red Deer.
Children's Work—Mrs. Skene, F. W. Gahrnath.

The indefatigable Hon. President, Mr. Levi Smith, President Ellenburgh, and Secretary Thomas, with a host of big directors, met for the first time on a very successful year of improvement, culminating in a fine fair. The other directors were: Mr. E. Bertrand, First Vice-President; Wm. Stuart, Second Vice-President; Directors John Rodin, W. S. McLaren, E. VanNorman, Martin Borstad, David Brown, Mrs. John Hardie, Mrs. M. Borstad, Mrs. W. McKenzie, Mrs. W. McLaren, Mrs. VanNorman, John Hardie, H. C. Tidford, Miss Irene Lett, Hugh Lee, Chas. I. Edwards.

HORSES
Percheron
Stallion, 4 years and over—Hugh Lee, Dovercourt, Wm. Sharp, Lacombe.
Clydesdale
Stallion, 4 years and over—William Stuart.

Heavy Draft
Team—Hyvonen.
Mare, with foal—Hyvonen, 1 and 2.
Foal of 1919—Hyvonen, 1 and 2.

Agricultural
Mare, with foal—Levi Smith.
Clover, 3 years—John Hardie, M. Borstad, L. Smith.
Pilly, 2 years—Hardie, M. H. Hyote.
Pilly, 1 year—Hardie.

General Purpose
Team in harness—D. Gibson, Hyte Mare, with foal—Hyte, E. O. Herbert, Almbro, 2 and 3.
Pilly, 3 years—Geo. Williams.
Pilly, 1 year—John Forrester.

Peas—McNally, 1 and 2.
Soybeans—McKenzie.
Vetch—McLaren, Brown.

GRASSES
Timothy—Thomson, Donaghy.
Clover—A. Hunsdale, Thomson.
Rye grass—McKenzie.
Sudan grass—Thomson.
Fodder corn—Thomson, Herbert.
Rape—Stuart, McLaren, Forrester, Lake—Ogden.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-lives" Point the Way to Quick Relief

"I suffered for a number of years with Rheumatism and severe Pains in my Shoulder and Back, caused by strains and heavy lifting."

When I had given up hope of ever being well again, a friend recommended 'Fruit-a-lives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine.

W. M. LAMPSON,
"Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid by Fruit-a-lives Limited, Ottawa.

No. 8, \$12.00; Div. No. 3, P. S. No. 5, \$32.25; Div. No. 3, P. S. No. 6, \$28.00; Div. No. 4, P. S. No. 9, \$10.175; Div. No. 4, P. S. No. 10, \$14.75; Div. No. 4, P. S. No. 11, \$42.00; Div. No. 5, P. S. No. 2, \$29.50; Div. No. 5, P. S. No. 3, \$120.22; Div. No. 5, P. S. No. 4, \$32.85.

Councillor McKinnon asked for a survey on the N.E. 28-34-5, from Blueberry bridge to the Horseshard.

Motion by Councillor Saari—"That the rate of pay for Reeve and Council officers be increased as per Municipal District Act." Carried.

Motion by Reeve Ellenburgh—"That no ratepayer be paid for any work he does for the Municipality until all his taxes are paid." Carried.

At the request of Councillor Sande, the secretary was instructed to inquire whether the survey between Secs. 22 and 24-64-5, had been received.

Date and place of next meeting was set for September 23 at Rocky Mountain House.

R. McCALLUM, Secretary-Treasurer.

GOVERNOR GENERAL ON VISIT AT PRINCE RUPERT.

Prince Rupert, B.C., Sept. 26.—The Duke of Devonshire, governor general of Canada, arrived in Prince Rupert at 8.30 tonight on his first visit to this city. He was met by a civic reception committee and a guard of honor of war veterans and mounted police.

At a public reception which followed, an address of welcome was read by Mayor McElmont. The duke, in reply, said that peace found him stronger than ever, common sacrifice and trials having brought the people closer together.

In the problems of reconstruction, said his excellency, everyone individually, must do his part for the general weal.

Tomorrow the duke will inspect local industries, lunch with the Canadian club and lay the keel of the first steel ship to be built here.

Storekeeper (to Sub. and his wife on first sleeping expedition): "I can strongly recommend this ham 'n' ham. It's well cured." Wife (in alarm): "Oh, don't give me one that has anything the matter with it, even if it is cured now. Let me have a perfectly healthy one, please."

Open A Housekeeping Account

with The Merchants Bank, and pay all bills by cheque. By depositing a regular sum in a Savings Account, you know exactly how much is spent on the different branches of housekeeping.

When you settle by cheque, you avoid all disputes as to payment, the cancelled cheques are receipts and prove the payments. This business-like method of house finance often prevents paying the same bill twice. Savings Accounts may be opened from \$1 up, on which interest is allowed.

20 PER CENT. TO BE ADDED TO PENSIONS

BONUS TO BE GIVEN FOR ONE YEAR TO WOUNDED PRIVATES SERGEANTS AND WIVES OF SERGEANTS.

Ottawa, Sept. 6.—Canada is at present paying war pensions to nearly 90,000, at an annual amount of \$24,000,000, and under the Pension Act, which became effective on September 1, the majority of these will receive bonuses and increases, which will aggregate to create an additional annual expenditure of roughly \$4,000,000, says an official statement issued by the board of pension commissioners. Just how this additional expenditure is to be distributed may be seen from the following figures.

A 20 per cent. bonus, payable for one year, is to be added to the pension of the disabled private. To the totally disabled man, this represents an increase of \$120, making his annual pension \$720 instead of the former \$600. The former sergeant or company sergeant-major, totally disabled will have his pension raised to an annual sum of \$720 from the former amount of \$637.50, roughly a 13 per cent. bonus. The amounts given are those to which totally disabled men are entitled; men with lesser disabilities, of course, receive smaller amounts, according to the degree of their disability. These bonuses are only payable to the ranks mentioned or corresponding ranks, commissioned officers and warrant officers being excluded from receiving them.

The additional pensions for married pensioners of \$96 per annum (for a totally disabled man) is to be paid in a preliminary draft was even then drawn up, which has been submitted to his colleagues and has been under discussion.

The approaching eight federal elections now increased to nine by the death of Hon. Frank Cheneau, has forced the question of a platform and organization to the front. With no stated policy and no political organization of any kind, the ministers realized that they were likely to make a poor showing in the contest. Even at best they will do well to break even in the eight seats. If they were beaten all round, it might force a ministerial crisis and compel a general election. Prospective candidates in the seats, as well as members of the house, have been pressing for an enunciation of a platform, claiming that the public would not vote for a government that did not bring to state where the government they support stands on the various issues of the day, particularly the tariff. The tariff is the only question upon which it is difficult for Liberal and Conservative Unionists to agree.

ADOPT MIDDLE COURSE. He believed that the platform as drafted, proposed that the Unionists party should adopt the middle course between out-and-out free trade and protection, as the policy best suited to unite the west. It is presumed that if the cabinet can agree on a platform, it will then be submitted to a government, which should be able to handle the public with ease. It is difficult to say.

A number of Conservatives such as Col. J. A. Currie, North Simcoe, and J. H. Burnham, West Peterboro, are strongly opposed to a permanent Unionist party, and feel that union should be abandoned and the public should be returned to the old historic Liberal-Conservative lines. Whether these members will attend the caucus and oppose the whole proposition or merely absent themselves from the gathering remains to be seen. If it is decided to form a permanent Unionist party it is likely that steps will be taken to revive the Conservative party and there is talk of a national convention.

AT LEAST 66 UNITED FARMER CANDIDATES.

Toronto, Sept. 26.—At least sixty-six united farmer candidates will be in the field in the present provincial election on the part of pensioners representing the United Farmers of Ontario, stated today.

He denied that the united farmers had been opposing individual candidates much more generally than conservative candidates, as had been charged in some quarters.

"The fact is," said Mr. Morrison, "that the united farmers have been absolutely impartial as between the two old parties. It has placed candidates in the field in practically every constituency in which, in the judgment of the farmers of that constituency, the proportion of rural population indicated that they should be represented by the farmers. There are sixty-eight constituencies of this class (rural constituencies), and it is expected there will be at least six united farmer candidates in the field."

These pensioners who have accepted of courses of instruction in the department of soldiers' civil re-establishment need feel no anxiety, as any pension to which they may be entitled on their release from that institution will be adjusted and paid to them at the new rates, stated the board. This also applies to any other class where a pension has been granted, pension suspended, and future awards will be made at the new rates.

There is, however, a point to be brought to the attention of the pensioners who hold in the army the rank of captain or a higher rank. These pensioners become entitled, under the Pension Act, to the same additional pension which is paid to other married pensioners, and to obtain payment of this they should communicate with the district pension office in their neighborhood. They will be required to produce their marriage certificates, as well as the birth certificates for any children they may have. All certificates are returned immediately they have been examined by the pension officers.

The larck came up to meet the sun and carol forth its lay, the farmer's son took down his gun and at him glanced away. The bird was seen at 5 and hummed the meadows o'er; the farmer's wife went for his hive and robbed him of his store. The little rose rose early, and the little laborer to the green; the greedy sparrow that flew and took his antsy life, in provoking took no stock; like me, refuse from bed to rise till half past eight o'clock.

STORMS, FLOODS, AND EARTHQUAKE

ON DECEMBER 17

Alarming Prophecy of American Professor, Laughed at by Canadians

The earth will receive a bad shock in mid-December, according to Professor Albert P. Porta, described as the noted sunspot forecaster and discoverer of Porta's Weather Laws. On December 17, he says that a huge spot on the sun will be visible to the naked eye, and as a consequence, there will be tremendous storms, eruptions and earthquakes.

Officials of the Toronto Meteorological Observatory say, however, that there is not the slightest cause for alarm, and that the sunspot, which is the subject of the professor's prediction in part.

"Owing to a strange grouping of six mighty planets, such as has not been seen in a score of centuries, the United States next December will be swept by the most terrific weather cataclysm experienced since human history began."

"It will be caused by the huge sunspot, or record—sunspot that will be visible to the naked eye. Since man first began to make records of events no sunspot has been recorded to be seen without the aid of instruments. This one will be."

"The sunspot that will appear December 17, 1919, will be a vast wound in the side of the sun. It will be a gigantic explosion of flaming gases, leaping hundreds of thousands of miles out into space. It will have a crater large enough to engulf as much as Vesuvius might engulf a football. Such a sunspot will be rich enough in electro-magnetic energy to fling the atmosphere of the earth into disturbance without precedence of parallel."

"There will be hurricanes, lightning, colossal rain. It will be weeks before the earth will regain its normal weather conditions. There will also be gigantic lava eruptions, great earthquakes, to say nothing of floods and fearful cold."

BASIS FOR PROPHECY.

"Here are the simple yet astounding facts that enable me to make this prophecy: 'Where two planets wheel into such position that they pull together on the sun, either in 'conjunction' on the same side of the sun, or in 'opposition' on the opposite side, their united pull causes the sun's gases to 'explode'—to leap out into space in the whirling volcano we call a sunspot."

"These sunspots in turn cause storms in the atmosphere of our earth—doubtless on other planets as well. Two planets united in such position cause a small sunspot and a small storm. Three cause a larger one—four make a very great storm indeed. But—on December 17, 1919, no fewer than seven planets will pull jointly on the sun. These will include all the mightiest planets, those with the most powerful pull."

"Six them—Mercury, Mars, Venus, Jupiter, Saturn and Neptune—will be in conjunction; grouped together in the greatest league of Planets ever known in the annals of astronomy. Directly opposite coming into opposition with this gigantic league will be the huge planet Uranus. The magnetic currents between Uranus and the six planets will pierce the sun like a mighty spear."

NO CAUSES FOR ALARM

"There is no cause for any alarm at the prediction of Professor Porta, said a Toronto Observatory official, and there is not likely to be."

The mere fact of the planets being on one side or other of the sun has no indication of any disturbing effects to the extent that he prophesies, and he has no right to make the prediction, for he has no organized ground for making it."

"At the present time the sun has got only a very small group of spots, but last month a very large group of sunspots passed over the sun from east to west, south and close to the sun's equator. This was one of the largest groups that have been on the sun for some time, and there was no disturbance noticeable, except by magnetic instruments."

"A collection with the head of a comet—If the comet was of large size—would cause a calamity such as he predicts; but we would have warning that such a thing was going to happen. There is no comet of the size visible which would be apt to cause such a calamity as that mentioned by the professor."

"In 1918 on the return of Halley's Comet there was alarm on the part of many people. There is not the slightest doubt that the earth passed through the thin part of the Comet's tail, and nothing of a calamitous nature happened."

"There is no chance of any huge catastrophe happening to the earth from outside space, without us being warned for a considerable time, possibly a few years, before they actually reach the earth."

ADMIRAL KOLCHAK RESIGNS POSITION.

London, Sept. 23.—Admiral Kolchak, head of the all-Russian government at Omsk, has informed the Allies that he resigns the title of chief ruler to General Denikin, leader of the anti-Bolshevik forces in Southern Russia, according to a wireless dispatch sent out by the Soviet government at Moscow. The message says the Bolsheviks have abandoned Kursk after severe fighting against Denikin's troops.

For free ambulance service within the city limits, phone 173 or 174.

ROYAL ALEXANDRA HOSPITAL

Edmonton, September 21, 1919.

Dear Madam or Sir—

In the opinion of a large number of superintendents and other hospital workers in Alberta, the time is now ripe for the organization of all hospitals and kindred institutions in the Province into an Association, the main purpose of which would be as follows:

1. To serve as a means of inter-communication, co-operation, and mutual support.

2. To standardize, as far as possible, the work in all departments of the hospitals in the province, to try to maintain that standard, and so to promote general efficiency.

3. To stimulate hospital development.

To impress collectively on the authorities of the province and cities, the great need for increased hospital accommodation for the aged, the tubercular, and those suffering from chronic conditions, who are at present occupying bed space in our active treatment hospitals.

4. To raise, in a similar manner, the question of the adequacy of the Government Grant.

5. To arrange co-operation with the Workmen's Compensation Board.

6. To standardize the training of nurses throughout the province.

These and other matters of similar importance in your hospital life, will come up for discussion. There can be no doubt that in many instances definite results will be obtained by the action of such an association, instances in which it would be hopeless for the individual to even think of effecting any change. With a view to forming such an association, Mr. J. C. McKay, the Minister of Health for the Province, was approached. He was asked to call a meeting of all Superintendents, Trustees, Nurses, Medical Staffs, Ladies' Aid Societies, Public Health Workers and others in the province in any way connected with or interested in hospital work. To this the Minister very kindly assented, appointing for the purposes of organization, as Chairman, The Very Rev. Murrell Wright (Chairman of the Board of the Galt Hospital, Lethbridge), and as Temporary Secretary-Treasurer Dr. James C. Fyfe (Superintendent to the Edmonton Hospital Board).

"Thank to the kindness of the President, the meetings will be held in the University of Alberta. It will take place on the two following dates: the annual meeting of the Provincial Nurses' Association about the 22nd and 23rd of October. You are urged to do your utmost to attend in person, or, failing that, to have your hospital as powerfully represented as possible. Besides organization, the session will be devoted to the reading of reports, the discussion of hospital problems, to demonstrations, round table conferences and to entertainments."

You are asked to forward to the Secretary any suggestions that may occur to you, write a paper if you care to, or, if not, suggest some one who you think can and ought to. Would you also please be kind enough to send at once to the temporary Secretary the titles of such subjects and any references seem to you warrant discussion.

For the purpose of defraying the costs of printing and other expenses unavoidably incidental to such a meeting, all hospitals and organizations sending representatives are asked to assure the payment of a small fee on the following basis:

1. Ladies' Aid and other auxiliary societies, \$1.00; 2. Hospitals of 20 beds and under, \$2.00; 3. Hospitals of 20 to 50 beds, \$5.00; 4. Hospitals of over 50 beds, \$15.00.

A hearty and immediate response to this appeal, together with your promise to attend the meeting, is requested, so that those in charge of the preparations of the programme and arrangements, may have at their disposal as much of the little remaining as possible.

Yours faithfully,
JAMES C. FYFHE,
Temporary Secretary-Treasurer.

BUYING BONDS IS COMMON SENSE ACT

DOUBLE APPEAL TO BUSINESS INSTINCTS OF WESTERN FARMER.

Investing of profits in Victory Bonds is the most logical appeal to Western farmers. The action is a sort of merry-go-round in which the farmer makes money at each turn. Not only does he gain a good rate of interest, but he assures himself of a market for his products at profitable prices.

The big business of Canada is built on foreign trade. This foreign trade has to be financed. Victory Loan proceeds provide the credits. The farmer is provided with money.

The grain grower of the West is receiving \$2.15 a bushel for his wheat, and proportionately good prices for his other crops. At a matter of good business, the Western farmer is urged to invest every cent of his earnings that he can spare in these bonds.

BECOMES MOTHER OF FIVE BABIES—A WORLD'S RECORD.

Red Bay, Florida, Sept. 6.—Mrs. Oscar Bay, of Walden Bridge, near here, has just become the mother of a quintet of babies. Mother and five new babies are getting a good rate of interest, according to the latest report. Medical men claim that the event is a world record. A number of instances are known where women have borne more than five, but five is unprecedented, they contend.

BANK OF MONTREAL

ESTABLISHED OVER 100 YEARS

A Joint Bank Account

A Joint Bank Account enables man and wife, or two members of the same family, to have a Savings Account in common, and make deposits and withdrawals individually.

THE CASE OF IRELAND.

Among the most enigmatical of political problems is the case of Ireland. Mr. W. R. Moody, editor of the Record of Christian Work, has been contributing to that magazine a series of articles on "Impressions of an American Visitor in Europe." The fourth paper is on the Irish question, and is to be recommended as a most intelligent, sane and fair treatment of the subject. Mr. Moody writes unimpassionately, from facts gathered personally, and from the observations of personal visits made to Ireland during three of the difficult periods in its history, the last having been at the time of the signing of the armistice last November.

Generously granted the privilege of interviewing the Sinn Fein leaders, Mr. Moody had the Irish situation presented to him by the opposition of Great Britain. He concludes after his experience that the position of the Sinn Fein party is inconsistent, and based largely upon the grievances of past generations, which the English themselves frankly acknowledge and deplore, and unrepresentative in view of the Sinn Fein claims to the right of secession and the illogical refusal to grant the same policy of self-determination to the Ulster party.

The British government, according to Mr. Moody, spent \$55,000,000 on the project of enabling Irish farmers to acquire small freeholds. Also, with a rare exhibition of paternalism, to improve housing conditions for farm laborers the Government built comfortable homes at a nominal rent and tax free. Attention is called to Ireland's exemption from conscription and food rationing during the war period. These facts, together with Mr. Moody's observations of Britain's dealing with Ireland introduced with Germany, cause Mr. Moody to conclude that if "such a rule is despotism, it is despotism of a most benevolent character."

The Ulster section of Ireland is far the poorer in natural resources, yet the chief commercial interests of the country centre there because of the character of the people. These people declare that they will fight rather than be severed from the United Kingdom. Yet the Sinn Fein leaders asserted to Mr. Moody that they would not grant to Ulster the right of self-determination which they themselves demand; and they further declared their intention of establishing religious education, which would impose upon Ulster the Roman Catholic faith.

WHY ITALY NOT PERMITTED TO ANNEX FIUME.

Rome, Sept. 26.—Tommaso Tittoni, foreign minister, declared during the meeting of the Crown Council Thursday that the Peace Conference would not permit Italy to annex Fiume because such action would authorize the Czech-Slovaks to occupy Teschen, the Jugo-Slavs to move forces to Klagenfurt, the Greeks to claim Thrace and the Roumanians to claim Banat.

Reports that Giovanni Giolitti, former premier, proposed to the Crown Council yesterday that Premier Nitti should dissolve parliament on September 28th, after having explained the situation, as denied by the Gazette del Popolo di Torino. The same publication says:

CAPTURED GERMAN GUN EXPLODES AT PARRY SOUND

SOUVENIR LENT BY DOMINION GOVERNMENT KILLS JAMES ALVES, OF DARLING

Parry Sound, Ont., Sept. 26.—One of the captured German guns loaned by the Dominion government, which was among the attractions at the fair here, was the cause of the death of James Alves, of Darling, aged 64 years. He was a reeve of the township of Carleton Place, and a director of the agricultural society, under whose auspices the fair was being held. The death-dealing souvenir, a small machine with a grenade, was handled by hundreds yesterday, and was supposed to be harmless.

A returned soldier today placed his hand on the lever and in an instant the war trophy exploded, with the result that Mr. Alves, who was standing some distance from it, received the grenade in his body. His death was almost instantaneous. An inquest will be held.

BILL DEPRIVES ALL ORIENTALS OF FRANCHISE

Ottawa, Sept. 27.—In a sitting which lasted for about two hours and a number of minor bills standing on the order paper.

A bill to amend the dominions' by-election act, so as to provide for disqualification of Oriental voters in federal by-elections, threatened to raise the vexed question of Chinese, Japanese and Hindu immigration into British Columbia.

When the bill was in the committee stage A. R. McMaster, Brome, took strong ground that any person who was admitted to Canada Oriental or otherwise, should be allowed the franchise. H. H. Stevens, Centre Vancouver, in reply, suggested that it be Mr. McMaster had seen thousands of coolies arriving at Montreal, he would perhaps be less anxious to give a vote to such persons.

Hon. Rudolph Lemieux, speaking as one who had been in Japan, declared that the Japanese as a race were up to date, highly cultured and clean, and that neither they nor the Hindus should be deprived of their votes. The bill was finally reported and now stands for third reading.

Third reading was given to a bill to amend the naturalization act by providing that foreigners in Ontario seeking naturalization might come before a judge of the court of general sessions.

Hon. Arthur Meighen introduced a bill to amend the dominion lands act, which provides for the continuation in effect of the orders in council giving priority in entry to returned soldiers.

Mr. Guthrie admitted that it was something of an anomaly that British subjects should not be entitled to vote. He observed, however, that the question of the Oriental vote was a live one in British Columbia.

WOMEN'S COUNCIL

The Executive of the Local Council of Women met on Tuesday afternoon in the City Hall. The Health committee reported on food exposed for sale. The report of the Finance committee recommending a tax to raise money for expenses, was approved, as was the report of the Social Service committee, outlining a programme of Health Talks to mothers and to boys, to begin within the next few weeks.

It was decided to send G. W. V. A. Ladies' Auxiliary to affiliate with the C.W.V. also to write to the local I. O. O. F. E. expressing our regret pleasure at the renewal of affiliation of the National I. O. O. F. E. with the National Council, and inviting the local Chapter to renew their affiliation with the L. C. W. V.

Some resolutions on the H.C.L. passed at the annual meeting of the N.C.W. were discussed, but no action was taken.

BIG STRIKE IN BRITAIN

NO TRAINS RUNNING AS RESULT OF GENERAL STRIKE ORDERED BY RAILWAY WORKERS.

London, Sept. 27.—Inquiries at all steam railway stations in London this morning brought information that "no trains were running" as a result of the strike order issued at midnight by the National Union of Railwaymen.

While a number of the underground lines of the city continued operation during the early hours of the day, it was declared that the decision of the underground motormen's union last night to support the National Union of Railwaymen will result in a complete tie-up of the subway today. Thousands could not be accommodated by the wholly inadequate bus and tram service which were in operation this morning and had to walk to work. Many resorted to bicycles and even roller skates.

C. T. Cramp, president of the union, interviewed Sir Eric G. Balfour, minister of transport this forenoon. This, although not regarded as an opening of negotiations, is considered as a harbinger of the union men and the government still maintain friendly terms toward each other.

Mr. Cramp declared shortly after noon that his presence at Whitehall this morning had nothing to do with the re-opening of negotiations.

None of the early newspaper trains left London, but the managements of newspapers, anticipating the strike, made arrangements two or three days ago to distribute papers by motor cars and motor lorries.

Several members of the cabinet went to Downing Street this forenoon and remained there in continued consultation throughout the morning, keeping in touch with the strike situation.

WILL FIGHT STRIKE

From an authoritative source it was learned that the government intends to use every resource, even to the employment of armed forces, if necessary, to combat what was characterized as "a strike against a strike against the life of the community."

NOVEMBER MAGAZINES ARE BEING PRINTED DURING SEPTEMBER.

All November magazines printed in New York will be off the presses before the end of September, if the publishers have their way. They are rushing publication of the magazines, under whose auspices the strike is being held, to tie up all the job printing in that city on October 1.

If the men go on strike, publication of magazines will have to be suspended, is the opinion expressed by several employers. Newspapers will not be affected, however, for their contract with the Big Six union does not expire until next year.

In order to speed up the preparation of their November numbers, so that the printing could be done in September, the magazines have sent thousands of telegrams to advertisers. Some of the magazines have provided automobiles for the use of advertising agents in order to facilitate their work.

M. CLEMENCEAU PAYS TRIBUTE TO THE CANADIANS.

Paris, Sept. 26.—Premier Clemenceau in the course of a great speech in the Chamber of Deputies, urging ratification of the Peace Treaty and warning of maintaining the solidarity of the Allies in peace as in war, referred with deep emotion to the heroism of the British, Australian and Canadian troops.

"Are we to refuse these men, Premier Hughes of Australia, Premier Borden of Canada and Premier Massey of New Zealand, the gratitude we owe them?" he demanded.

"They belong to the Empire, but the same blood is in their veins. Never would England secure from them a vote contrary to the interests of their own countries. Well, I found them to be friends of France (cheers). Must there not have been something in the minds and hearts of these men from the confines of the Pacific to induce them to inspire to arms and come to us in our hour of need?" he asked.

PRESIDENT WILSON CANCELS TOUR

Wichita, Kan., Sept. 26.—President Wilson today cancelled the remainder of his tour under orders from Admiral Cary T. Grayson, the President's physician, who will return to Washington direct from Wichita. Admiral Grayson gave illness and nervous exhaustion as the reason for his action.

Although there was said to be nothing serious about the President's condition, Dr. Grayson declared a nervous reaction affecting his digestive organs, made suspension of his trip imperative.

Mr. Wilson was ill most of Thursday night, and the decision to return at once to the National Capital was reached just before his arrival in Wichita. The President himself wanted to continue his speaking program, but Dr. Grayson would not permit it. The President's address which was to have been delivered at the Forum building this morning was cancelled.

BRITISHERS GOING FROM ARCHANGEL.

London, Sept. 27.—The British evacuation of Archangel has been completed with the exception of 200 Highlanders, who will embark today, according to an announcement here.

For free ambulance service within the city limits, phone 173 or 174.

NO LABOR TROUBLE

EDUCATION PAYS ON THE FARM.

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling. An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, men cut their grain with a cradle, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the well by buckets. They treated their non-descript cattle for "hallow horn" and "wolf in the tail" and planted the corn with a hoe. The horse and the ox were their only means of transportation. The farm houses had no conveniences; houses were built of mud and the kitchen contained largely of hard soap. Now, the farmers have larger farms. They cut and bind their grain with binders and thresh with engine driven threshers. They frequently use tractors and many own automobiles. They select varieties of grain that are known to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of food. In the farm houses have been greatly improved. To keep up with the times and to make the most money from the farm one should know how to farm in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays. You can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course. For particulars write to: F. S. GRISDALE, Principal, School of Agriculture, Olds, Alberta.

DOMINION LANDS.

Increase in Rate of Interest.

PUBLIC NOTICE is hereby given that in accordance with the provisions of an Act to amend the Dominion Lands Act, passed at the last session of Parliament, and commencing from the 1st July, 1919, where interest is chargeable, the rate of such interest on all new transactions in connection with Dominion Lands shall be six per centum per annum; also that from the 1st of September, 1919, the rate on all overdue instalments in connection with both past and future transactions will be increased to seven per centum per annum.

By order,

L. PEREIRA,
Secretary.
Department of the Interior,
Ottawa, August 26, 1919.

For free ambulance service within the city limits, phone 173 or 174.

CITY OF RED DEER

NOTICE

NOTICE IS HEREBY GIVEN that the voters' list for the City of Red Deer is now prepared and open for inspection in the City office during office hours. As the list is compiled from the assessment list made in October, 1918, it is necessary to see that your name is on the list if you are entitled to vote.

Applications to have names added must be filed in the City office on or before November 1, 1919. Forms and information may be obtained there during office hours.

A. T. STEPHENSON, Secretary-Treasurer.

EXTRACT FROM MUNICIPAL ORDINANCE

Any person who has been resident in the municipality in the then current year prior to the first day of July, and who is otherwise duly qualified, whose name does not appear on the voters' list, or who is not assessed on the roll high enough to be qualified as a voter, or whose name is put down in error or whose name has been omitted from the last revised assessment roll (provided that the taxes are first paid on the property or income in respect of which he claims a vote), may either by himself or agent apply to have the list amended upon giving to the clerk a notice in the following form.

LAND FOR SALE.

Approximately 80 acres of the S.W. 1/4 of Section 29-38-27, W. of the 4th Mer. is offered for sale at \$25.00 per acre, cash.

LOTS FOR SALE.

The City of Red Deer is the owner of a number of lots which will be sold at a low price. Easy terms will be given. Full list and prices may be seen at the City Office.

TENDERS FOR COAL.

Tenders will be received until October 1st, for approximately 40 tons of Steam Coal to be delivered into the City Collar.

TENDERS FOR STORM SASH.

Tenders will be received until October 1st, for nine or more Storm Sash to be placed on Windows in the City Hall.

These serviceable blankets are made from good strong yarns of cotton and wool mixture, and are the only blankets for outing purposes. Priced at \$4.95 to \$12.50

TORONTO MAN DECLARES THE EARTH IS 1,600,000,000 YEARS OLD--THAT'S ALL

DR. WILLIAM H. MCNAIR, OF MCMASTER UNIVERSITY DESCRIBES THREE METHODS OF CALCULATING AGE OF THIS PLANET OF OURS.

Is our planet 1,600 million years old? Or only ten million? That depends on how you figure it out. The one thing that comes out clearly from all methods is that many millions of years have elapsed since our atmosphere first cooled off sufficiently to make life possible on the globe. Dr. William Harvey McNair, of McMaster University, Toronto, who writes in the Scientific American Supplement tells us that there are three principal ways of approaching this problem. The one that gives the smallest answer is the oldest and depends on an attempt to find out how fast the sun is cooling. The largest answer is the result of the newest method, based on radio-activity; while midway between are the attempts to calculate the time taken to deposit the successive geological strata.

"Our star, the sun, is not eternal. Sooner or later its fierce heat will all have been dissipated in space and it will become cold and dead. And the life of our planet is bound up with that of its parent sun. It necessarily follows that the age of the sun is a measure of the maximum life of the earth. It is then, possible to measure in years the length of time during which our sun could continue to radiate heat at approximately the same rate as we now experience, neither too hot nor too cold for the existence of life. Lord Kelvin's affirmative answer to this question in 1825 was so incisive and so surprising that the scientific world was at once roused to vigorous argument. It is evident that we know the temperature of the sun and the rate at which its heat is being dissipated into space, we have a means of determining how long the atmosphere of the earth has been cool enough for the existence of living things. But it is not so simple a matter as this statement of the case would indicate. The sun is accompanied by a corresponding shrinkage. Paradoxical as it may seem, this, in turn, gives rise to additional heat, and so the rate of cooling is retarded.

CALCULATING THE SUNS HEAT. "Now, taking this into consideration, and putting the present temperature of the sun at 5,000 deg. F., Kelvin concluded that it has been only a matter of 15,000,000 years that the sun has been at its present degree of heat. It has been conceded that the rate of radiation in the past may have been somewhat different, which might result in a possible lengthening of the time to 30,000,000 years. Many attempts have been made to discredit this result, and many and ingenious have been the suggestions of possible sources of energy which would serve to extend the life of the sun and earth, but it must be confessed that none of them stands the test of rigid analysis, and this result still remains unshaken."

But even these millions do not give the geologists the time which they insist has been necessary to accumulate the vast deposits on which we live, and to develop the present great variety of living forms. Since Lord Kelvin's results were first published, their voices and those of their successors have been constantly raised in protest against the inadequacy of the time allowed them by the physicists. To quote again:

"In order to attain some measurable representation of the extent of geological time, recourse was had to two different geological processes: the formation of stratified rock and the accumulation of salt. These were the oceans, and both of these have been studied with the greatest care and with results of steadily increasing accuracy."

"The calculation of age from the thickness of sedimentary rocks is

Who, for example, would have dared to suggest from geological evidence alone that we have to do with periods of from 800 to 1,000 million years?" Of our three schools of investigation as to the extent of geological time, one thus tells from 10,000,000 to 30,000,000 years; the second, about 100,000,000 years; and the third anything up to 1,600,000,000. We must admit, says Dr. McNair, that we have not advanced very far. The mean of 10, 100 and 1,600 is a figure of little value. But there is a sense in which these figures are approximately the same—that is, when they are compared with infinity. He concludes:

"The number of the years of time and space and force, we believe, is infinite. In the great abyss there has floated for 100 or 10,000 millions of years, perhaps even more; the minute speck of matter which we call the earth, but in the light of infinity this is but a momentary phase. The created world is but a small parenthesis of eternity."

CALGARY LIBERAL CLUB MAKES BID TO UNIONISTS

MAJ. R. B. EATON, M.L.A., FIRST SPEAKER, ADVERTISED AS EX-LIBERAL UNIONIST.

A strong bid by the new Calgary Liberal Club to win over the local Liberal Unionists to its support was made last night when Major R. B. Eaton, member of legislature for Hand Hills delivered an address. Major Eaton was advertised as a former Unionist Liberal at the last federal election and, being a returned veteran, it is hoped that his appearance before the club will be a signal for those who parted with the Quebecers on the conscription issue to return once more to the fold.

Whether this will have any effect or not remains to be seen. Whatever Major Eaton's actions were as a Unionist during the election, there is no question about his partisanship since, as during his attendance at the recent legislative session, he was a Unionist and thin Alberta government supporter. And the best that could be said of the Alberta government during the election was that a few leading members of the cabinet observed a neutral attitude. The speaker of fact, only one minister, Hon. C. R. Mitchell, provincial treasurer, was openly for Union government, on the Military Service Act issue, and most of the others were silent.

MAJOR EATON POPULAR. Major Eaton is a man of strong personal personality. He has a fine presence at the Liberal Club fails to draw in the local Liberal Unionists, the new organization will have a hard task.

The officers of the new club are: Dr. Leslie Wright, president; George Ham, first vice-president; Mr. McFarlane, second vice-president; F. C. Fottis, secretary, and C. J. Ford, treasurer.

What seems to be sticking in the throats of the Liberal Unionists is the fact that, or rather, lack of war record, or rather, lack of war record of Hon. W. L. Mackenzie King, the new Liberal leader chosen by the recent annual convention. There is no question but that among Western Liberals, but whom none were stronger supporters of enforced military service upon the outbreak of the war.

Supporters of the new Liberal leader, Mr. King, assert that in good time he will discuss his war record and produce good reasons why he was absent in the States during most of the great struggle. The Calgary Liberal Unionists want to hear on this point first before they take any steps to commit themselves to Mr. King's leadership. If Major Eaton can satisfy the local Liberal Unionists that Mr. King's active war work during the war effort of the country, he will go most of the way in reuniting the Liberal-Unionists with the old Laurier-Liberal division in the city.

DEADLOCK BUT NO VIOLENCE IN STEEL STRIKE.

Pittsburg, Sept. 26.—Chief developments on the fifth day of the great steel strike were:

(1) Definition of the strike issue as the right of employees "to be heard, to organize, and to have some voice in determining conditions under which they labor," made by Samuel Gompers, president of the American Federation of labor, before the senate labor committee in Washington.

(2) Calling of a meeting of the strikers' national committee in Pittsburgh today to make final arrangements for the strike of 35,000 employees of the Bethlehem Steel company set for Monday.

(3) Announcement that John D. Rockefeller, Jr., principal owner of the Colorado Fuel and Iron company, will take no part in the strike of six thousand workers at the plant at Colorado Springs.

(4) The claim by union officials that workers in the Youngstown district, at a meeting held to vote on the question of returning to work, had decided against such a move.

(5) Condemnation of "foreign agitators" and condemnation of Sheriff William Haddock of the Allegheny county by a coroner's jury in Pittsburgh, which returned a verdict of "death from gunshot wounds inflicted by persons unknown—was an attack was being made on deputy sheriff during riot," in the case of a woman organizer and striker, whom the steel workers claimed had been "murdered" at West Maitland, Penna.

(6) Apparent deadlock, marked by lack of violence, apparently prevailing as the chief steel centers.

IS NOW ABLE TO GO DOWN TOWN

MRS. HOFFMAN MAKES THE TRIP FIRST TIME THIS YEAR

"I had to live on milk for five months before I found I was now I can eat meat, potatoes or anything else I want and am building up every day," said Mrs. Mary Hoffman, who resides at 736 Clough Avenue, Superior, Wis.

"Nearly a year ago I began to have trouble with my stomach," she confided. "After every meal, gas would come and start terrible pains in my stomach. I just suffered agonies and would bite my lips to keep from crying out with pain at times. I just couldn't digest anything but milk and a little bit tea once in a while. Then my nerves began to give way and even the rustle of a paper on the floor would make me tremble like a leaf. I couldn't do any of my housework and at night I was so nervous and in such pain that I couldn't sleep and finally got so weak and run down that I could hardly walk. Then I read about Tanlac and persuaded my husband to get it for me."

"I honestly believe that if I hadn't taken Tanlac when I did, I wouldn't have been here now to tell the story. I began to build right away after I had taken one bottle. My stomach was relieved, the gas stopped forming, and I began to eat and enjoy it. Now I can do three good meals every day and never have a bit of trouble. I came upon the other day for the first time this year and enjoyed the life I can get around and do all my housework, am getting stronger every day, and think it is just wonderful that I found a medicine that would do all this for me. Everybody ought to know about Tanlac and what it will do for a person who suffers like I did, and I am glad to tell how it helped me."

Tanlac is sold in Red Deer by Gaetz-Cornett Drug & Book Co., in Stettin by the Palace Pharmacy, Ltd., in Edmonton by the Rocky Mountain Drug Co., in Vancouver by the Veteran Drug Store, in Delburne by E. J. Hodge, and in Hespero by Macdonnell Bros.

RE-ESTABLISHMENT QUESTIONS TAKEN UP BY COMMITTEE.

Ottawa, Sept. 26.—At the evening sitting of the special committee of the house of commons on soldiers' re-establishment, Mr. MacNeil asked if in the case of a man being only a few days short of three years' service overseas he would be given gratuity for only two years, and if there has been any dissatisfaction from this cause.

Mr. Cox replied that there had been some complaint on this ground. Such a man was entitled to only two years' gratuity.

Mr. MacNeil instanced the case of men who were transferred to the British transport service and who refused to remove their Canadian badges. One man was court-martialed for this refusal, but his statement that he was still a Canadian was upheld. However, these men found they could not claim for gratuities in Canada.

Mr. Cox said there had been dissatisfaction on this ground. These men were not entitled to the Canadian gratuity.

F. G. Blair, secretary of the department of immigration, told of the movement of dependents from England to Canada. He said the immigration department had not in any way advised dependents to hasten back to Canada. Warnings had been sent to the London office that only bona-fide domestic and agricultural workers should be sent to Canada. The department had taken the attitude that, apart from these two classes, immigration should not be encouraged until after Canada has adjusted her labor market. So far there have been no members of the British women's war organizations brought to Canada.

Mr. Blair said that 17,112 dependents returned previously to the armistice and 14,424 since. It was estimated that about 4,000 remained in England. To date the government has expended nearly \$1,250,000 in transportation.

NOT EVEN A SCAR

is left where my little son cut his forehead so badly by running against a cross-cut saw," writes Mrs. T. G. Miller of Winona, Ont.

"I had never used Zam-Buk, but had heard how good it is for injuries, so I got some, and applied a dressing of it to the place where the saw cut. It soothed the pain. I renewed the dressing twice a day for three days, by which time the cut had healed much better the child was able to go without the bandage. From then I had no more trouble with the wound. It healed up very quickly, and not even a scar is left. Needless to say, I shall never be without Zam-Buk again."

Mothers should always keep Zam-Buk in the house, as nothing can take its place for cuts, scratches, bruises, burns and scalds. For rash, eczema, and all sorts of blood-poisoning, ulcers, abscesses, boils, pimples, scalp sores, salt rheum and piles Zam-Buk is equally good. All dealers sell it.

Zam-Buk

SUNFLOWERS FOR FODDER

SUCCESSFUL EXPERIMENT AT STRATHMORE.

The C.P.R. Demonstration farm management at Strathmore has this year introduced some strange methods of feed production and storage of feed, but having such a dense growth that passage along the rows was almost impossible.

The sunflowers looked more like a forest than a crop, standing from 10 to 12 feet in height, rows three feet apart, but having such a dense growth that passage along the rows was almost impossible.

VALUE DEMONSTRATED. The value of this plant as fodder has already been demonstrated at the state agricultural college at Bozeman, Montana. The crop, after being harvested, is run through a large-sized chaff cutter and elevated into an ordinary silo, from which it is used during the winter months as a feed for cattle.

As forage for cattle it is declared to have more food value than corn and it was to prove whether Alberta was equally suited to the growth of the plant that Professor Hutton has been experimenting with the sunflower this year. It is stated that the cattle are fond of sunflower fodder.

About eight acres of the Strathmore farm are occupied by the sunflower crop. About 2½ acres will run approximately 25 tons to the acre, and the average will be about 20 tons.

Prof. Hutton, questions concerning the food value of sunflowers, said:

"If the Alberta results correspond to those obtained in Montana, we should get more food value from the sunflowers we can grow, than from corn, which is not a regular Alberta crop."

With twenty tons of sunflowers to the acre, enough food will be supplied to feed twice the number of cattle that can be fed from the same area planted to oats or peas. The value of the sunflower is thus evident to every farmer, for it means that the man with 150 acres of land as many as many by growing sunflowers as he could feed had 320 acres and was planting oats and peas for feed.

We plan to make the value of every pound of the sunflowers we are growing at Strathmore and the results will be tabulated so they may be available to every farmer and stock raiser in the province. If they turn out as we expect, then we shall see a great increase in the use of silos as winter feed receptacles.

The value of the sunflower as a permanent crop, every farmer who raises cattle will one day be equipped with one or more silos, as this means more food for his cattle, and will raise twice the number of cattle that could be supported off the land on oats and peas crops.

It is important to remember, said Prof. Hutton, "that with the high food value of the sunflower fodder, cattle can be finished off with this feed, and also fattened which every cattle-raiser will appreciate."

JAPAN SENDS 4,000 "PICTURE BRIDES" IN A YEAR

Following the arrival of 75 Japanese "picture brides" at San Francisco in a single day it was announced by the immigration authorities there that more than 4,000 of these brides have been admitted at Pacific coast ports within the last year.

This is the plan, as V.S. McClatchey, publisher of the Sacramento Bee explains it, whereby Japan is making a "peaceful invasion" of the Pacific coast states.

A Japanese male who has secured admission to the United States sends his photograph back to Japan; and his friends, or the officials secure for him a picture of a Japanese girl. The picture, Mr. McClatchey cannot say if any ceremony is required, but the Japanese government recognizes possession of the picture by the woman as a marriage. The United States so called upon to recognize it, and the woman and her picture are admitted to the United States under an arrangement obtained from that government subsequent to the adoption of the "gentlemen's agreement" on immigration between the two countries. The "picture bride" promptly fulfills her duty by bearing children, as many as one a year, and each child is carefully registered as an American citizen, entitled to all privileges as such including the right of possessing land through a guardian.

By this method Japanese are acquiring land in Washington in practically legal constitution to the provisions in the state constitution which prohibits alien ownership of land. They are getting a strong foothold in the rich valleys of Western Washington using there the same tactics by which they have acquired great holdings in the Sacramento and San Joaquin valleys in California. In the Puget Sound country they are engaging in the hotel business extensively, with the double object of giving employment to their countrymen, and of marketing through their chains of hotels much of the produce grown by Japanese on adjacent market gardens.

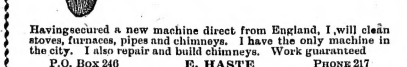

The phrase Japanese "picture bride" sounds romantic, but it is a rapidly increasing industrial and social reality.

ALBERTA GIRL KILLS HERSELF.

Leaving a letter addressed to her mother, in which she expressed dependent sentiments, Marie Gibbs, 18 years of age, of the Big Stone district, near Youngstown, on Sept. 21, put an end to herself by shooting herself through the head with a rifle.

LICENSED CHIMNEY SWEEP

Having secured a new machine direct from England, I will clean chimneys, furnaces, pipes and chimneys. I have the only machine in the city. I also repair and build chimneys. Work guaranteed. P.O. Box 240 E. HASTE Phone 217

N. WHITE - Auctioneer, Red Deer

Local and District Intelligence

Mrs. Moscherosch, of Hillsdown, is visiting friends in Michigan.

Mrs. H. H. Humber is spending a few days with friends in Edmonton.

Harold Gaetz and Douglas Simpson were down from Edmonton last week.

For savings in butcher meat, see G. W. Ball's ad. on back page.

Miss Forbes, nurse at the Memorial Hospital, has returned from a month's holidays.

Mr. Hazelwood, of Vulcan, has purchased the Sylvan Lake Hotel from O. B. Wilkinson.

W. P. Graham is the new teller in the Imperial Bank and G. N. Campbell is the new accountant.

Mrs. Bagley and Miss Ethel Bagley were visiting in Lacombe over the week end.

Mr. and Mrs. Douglas Moore, of Nordegg, were visiting Mrs. R. G. Dawe last week.

Geo. Coghlin left on Sunday for Calgary, where he has secured a position with the C.N.R.

Live poultry wanted.—G. W. Ball will pay Calgary prices.—Phone 4 or 136.

The Women's Council are holding a 10c tea in the Institute Rooms on Saturday, October 4th.

Miss Muriel Proctor returned from Melville, Sask., Monday morning. Mrs. Proctor will remain for some time.

J. J. Dale received a wire on Saturday last that his son Norman had arrived at Halifax from overseas, and will be home tomorrow or Friday.

Chicken shooting opens today, October 1st, and some good shooting is promised, as the chickens are very plentiful.

Red Deer Basketball girls journeyed to Innisfail Fall on Wednesday, defeating the Innisfail team in the first game, but losing to Olds in the final.

Mr. and Mrs. Clair J. Cole, of Edmonton, and their twin daughters, are visiting Mr. and Mrs. Walter Webb, of North Red Deer.

E. M. Matchett, of Port Haney, B. C., was in the city Monday. He took the afternoon train out to Edville, where he will visit his old friends.

Gourlay Piano, first class condition, beautiful tone. Highest bidder gets it at Kenny's, October 15th.

The regular monthly meeting of the Women's Institute will be held at the residence of Mrs. E. B. Welliver on Friday afternoon, October 3rd, at 3.30.

A public meeting will be held in the City Hall on Friday night, at 8 o'clock, under the auspices of the Horticultural Society, when Mr. Patton will give an address on the care and storage of vegetables.

John Holmes, of the Windsor Garage, is in the military medical hospital at Calgary from the effect of old wounds received during the war.

Frank Michener, who moved to the Olds district some months ago, where he is agent for the Chevrolet car, and who he has built a residence, moved his furniture down last week.

Opposition is the life of trade. Farmers, we want your cream in our business. The Swift Canadian Co. are paying the highest cash prices for cream and poultry. E. R. Hill is handling the goods and will give you a square deal every time.

The many friends of George Scott, residing east of Penhold, will regret to hear that he was badly injured in the head last week end, and is in the Memorial Hospital for treatment.

G. W. Griffith has purchased the west 1/2 of section 737-28, W. 4th, from Mr. Mayberry. The farm is known as the old Murdy McDonald farm, west of Penhold, and sold for \$41 per acre. There are 253 acres in the farm. The deal was put through by Melstrom & Lindsay.

A little lot about two and a half years old named Tommy Petibridge, of Tees, was badly kicked in the head by a horse a few days ago. He is in the Hospital, and it is hoped he will be alright again, although his skull was badly fractured.

Seven horses were killed on the C.P.R. track near Tuttle last Saturday. Three belonged to A. E. McKenzie, two to D. Bethune, and two to Chris. White & Son. Numerous horses and cattle have crossed the cattle guards, and as a result an awful nuisance to railway trains as they feed on the track and will not leave it and the engineers have had to stop often to avoid a killing of cattle were also killed a short time ago near Penhold.

The Victory Loan campaign will soon be on again. Lieut. Col. L. F. Page, D.S.O., has been appointed Chairman for the whole Red Deer district from Olds to Blackfald for the campaign. W. E. Payne has been appointed Hon. Chairman for the local Red Deer district, and G. C. P. Geo has been appointed secretary. The campaign will be on from Oct. 27th to the end of November.

The first snow of the season fell on Friday last, Sept. 28th.

For free ambulance service within the city limits, phone 173 or 174.

W. J. Botterill and James Mann, have been appointed commissioners.

Latimer & Botterill have money to loan on farms. Prompt service is our motto.

G. W. Ball is at the old stand on Ross Street, and you will save money by looking over his prices.

Mrs. A. T. Stephenson was very severely injured last week by being caught in an electric washer.

The beautiful tints of the foliage this week on the hills surrounding the city would be hard to beat anywhere.

If you have any property to sell, list it with the J. Malcolm Co. They sell farm lands.

The frosts of Thursday, Friday, and Saturday nights pretty thoroughly ruined vegetation. There was twelve degrees of frost.

We have several good house propositions on our lists. Get our terms, stop paying rent.—Latimer & Botterill.

Don't forget the Veterans' popular dances at the Armouries every Saturday night. Dancing 9 to 12. Admission, Gent., 50c; Ladies, 25c.

A chimney fire on Third St. South caused an alarm to be sounded on Friday afternoon last, and the brigade turned out. No damage was done.

Misses Ella and Winnie Ridwell, of Lachute, Quebec, are visiting Chief and Mrs. Anderson. Miss Winnie has just returned from Germany, where she served with the Canadian nurses at the front.

The Merchants Bank has opened a permanent branch of the bank at Penhold with W. T. Hopkirk, accountant of the Red Deer branch as manager, and A. Raby as assistant. The bank has formerly only had a sub-agency from Red Deer at Penhold.

A social will be held at the Armouries under the auspices of the Ladies' Auxiliary to the O.G.W.A., on Thursday evening, Oct. 2nd. Refreshments music and cards. All returned soldiers and their relatives are cordially invited.

S. N. Shank, of Horn Hill, has some potatoes hard to beat. He had eleven potatoes weighing over 30 pounds, and left three at the News office weighing over 9 pounds, or over three pounds each. They are clean, regular about white spots, and we do not think they can be beaten in the district.

John Reid, shoemaker, is always progressive. He has lately installed a new machine which is a wonderful piece of mechanism. It is for sewing soles on shoes and is very powerful and a great labor saver. The next thing we know John will be developing into a bloated manufacturer of shoes. We hope such may be the case as there is a great opening for such an industry in the West.

Latimer & Botterill have installed a steam heating plant in the Commercial Cafe building, which will add greatly to the comfort of patrons of this house. The proprietor has also fitted the premises up in a most modern and artistic manner, and divided a portion of the floor into compartments for the convenience of customers. An orchestra also discourses sweet music during meal hours, all of which makes the Commercial Cafe a very attractive and up-to-date restaurant.

WANTED a farm to rent on shares by an experienced farmer.—Apply to P.O. box 837, Red Deer.
